

American Tour Conference Schedule

Threefold Education Foundation | Chestnut Ridge, NY | May 9 - 11

Welcome to the Cymatics American Tour Conference, the first of its kind—and perhaps the beginning of an annual tradition—as we continue to add more speakers offering their observations and research in this dynamic field of cymatics.

The schedule for this conference includes time slots labeled as Lecture, Workshop, or Movement. These are intentionally left without specific headings, as there is no linear progression through the topics; instead, they will interweave organically throughout our time together.

Enjoy the conference,

Frank Dauenhauer
Managing Director, CFAE
