

## American Tour Conference Schedule

---

The Portland Anthroposophical Branch Library, Portland, OR | May 30 – June 1

**Welcome to the Cymatics American Tour Conference**, the first of its kind—and perhaps the beginning of an annual tradition—as we continue to add more speakers offering their observations and research in this dynamic field of cymatics.

The schedule for this conference includes time slots labeled as Lecture, Workshop, or Movement. These may or may not change depending on the attendees' needs determined by the conference facilitators. There is essentially no linear progression through the topics; instead, they will interweave organically throughout our time together.

Enjoy the conference,

**Frank Dauenhauer**  
**Managing Director, CFAE**
